Barry C. Evans, AB8WI, 513-651-4544 days, or 513-231-8864 evenings, or email Barry.Evans@RaymondJames.com .

APPLICATION AND ADDITIONAL IMPORTANT INFORMATION ON FOLLOWING PAGES

Milford Amateur Radio Club (MARC)

HAM RADIO TECHNICIAN LICENSING CLASS - 2007

Additional Information

You will need to have the ARRL book "*Ham Radio License Manual*", First Edition, in order to participate in the class. This is a new book first published for Technician level training beginning on or after July 1, 2006. The old "Now your Talking" manuals are very much out of date and cannot be used as there have been significant changes in the licensing requirements.

Your advance **paid registration** must be received no later than March 9th. To confirm a reservation for the classes, including one copy of the book, students must submit their registration form and fee of **\$50** payable to "**MARC**". Mail your check or money order to **James R. Linn, Treasurer, MARC, 5110 Rohmar Road, Cincinnati, OH 45244.** Indicate on the check that it is for "Technician Book and Class Fees". Checks must arrive by March 9th. Please include your name, mailing address; phone number and email address with your check. **An Application form is attached on the next page.**

While not required, we **strongly recommend** that students read at least some of the book before classes start. This will make the classes more meaningful and will make it much easier to pass the thirty-five question multiple-choice test.

The new book "*Ham Radio License Manual*", First Edition, may be ordered directly from R&L Electronics, 1315 Maple Avenue, Hamilton, OH 45011. Phone 513-868-6399. www.randl.com. The book costs \$28.77, which includes Ohio sales tax and shipping to your address by priority mail. *If you wish to purchase your book on your own, your advance registration fee to MARC is only \$25* for the classroom instruction only.

We also suggest students visit www.qrz.com. This is a web site providing Amateur Radio information. If students scroll down the left column of this web site, they will see the category "Practice Tests". Click on that button and then the Technician Button. This will provide students with some excellent opportunities for review and will immensely enhance their chances of passing the real test. There is no charge for this web site, and students may take the practice tests as many times as they wish. Each practice test is slightly different providing students with practice and review of all of the topics covered in the book.

For additional information or questions, call:
